Custom Painted	We require a sample and for you to provide colour name, brand of paint and any codes

CEDAR VENETIAN BLINDS – Finishes & Colours:

Danish Oil Finish -

Danish Oil is a clear oil that enhances the natural beauty and grain of the timber, which will Never peel or crack. It can be used internally or externally as it has been specifically formulated with a UV inhibitor.

We are able to offer a colour selection of timber as - Mid/Light or Mid/Dark.

Coloured Oil Finish -

The matt oil finish has been developed as an economical single coat application, which is easy to maintain. The oil is deeply penetrated and can also be used to re-coat the blind if necessary should the slats become dry and/or discoloured in the long term.

Four colour selections are available - Western Cedar, Red gum, Gum leaf & Walnut.

Clear Lacquered Finish -

Only the best grade of nitrocellulose lacquer is used for coating the blinds. The lacquer is Water resistant, Scratch resistant and Chemical resistant. The Lacquer finish minimizes the need to re-coat the blind and makes it easier to dust.

We are able to offer a colour selection of timber as – Mid/Light or Mid/Dark.

Rub Finish -

Rub finish is a water based liming rub. The rub effect highlights the natural grain in the timber and it is an economical alternative to Limed and Lacquered Finish.

Three colour selections are available – Terracotta, White and Riviera Blue.

Stained & Lacquered Finish –

Standard variation will occur in colour of the stains due to any of the following reasons – different base colour of the timber, different density of the timber, variation in drying time and humidity conditions at time of production.

If colour matching is critical, you are advised to send a sample from your colour swatch so we can hand pick the best possible timber to suit your requirements.

Five colours are available – Macadamia, Mahogany, Maple, Golden Oak and Ebony.

Limed & Lacquered Finish –

Again as per the Stained and Lacquered Finish – some variation in colours may occur. If colour matching is critical, you are advised to send a sample from your colour swatch so we can hand pick the best possible timber to suit your requirements.

Two colour selections are available – White or Pink.

White and Custom Painted Finish –

Three white colour selections are available – White, Off-White and Deco White.

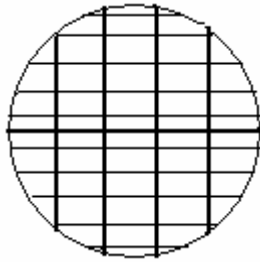

We can paint any colour desired but we must receive a sample as well as colour name, paint brand name and any colour codes.
