- Base Rail:-** Automatically will be cut down to allow for Hold Down Clips unless specified not to.
- Hold Down Clips:-** If hold down clips required must be specified.
- Control and Lifter Side:** Either Left or Right side
- Max. width of one blind:** The maximum width available is 2400mm wide.
- Max. area of one blind:** The blind should not exceed 4 square meters.  
If requested the blind will not be covered by warranty.
- Care:** Low maintenance

The woodwind slats are inherently anti-static and repel dust though occasional feather dusting may be required. The durable polymer coating resists chipping, cracking and warping. Spills and stains can be cleaned with mild soap and water. Slats are fully washable and will not be harmed if exposed briefly to water or humid conditions. Do not use any harsh chemicals or abrasives. Do not use any ammonia-based cleaners.
